 **Fiat Albea**

FIAT

FIAT

A car to introduce you to new emotions.

Like visiting a new country, meeting new people, falling in love... New Fiat Albea is new inside and out.

The time we spend with the people we love: this is what life is all about.

People live their own life, but share their happy moments with their families and their loved ones. Fiat Albea is the perfect setting for sharing these moments.

Our eyes crave for beautiful sights, such as this.

Fiat Albea's new redesigned two-colour fascia is modern, elegant and functional. So pleasing to the eye and to the touch, the fascia embodies many innovative features, from the navigator to the CD-MP3 player.

Can't make your pick between manual and automatic transmission? You can have them both with the Speedgear™ technology. Just select automatic or manual drive mode with the Electronic Continuous Variable Transmission system (ECVT). Experience the pleasure of jolt-free gearshifting.

You are witnessing a real transformation.

On Fiat Albea everything is brand-new: the shape of the body, the headlights, the grille, the body-coloured bumper, the most spacious rear seat and luggage space in this segment, unprecedented sound-proofing, and many other innovative features.

Illuminated glove box, an example of the attention lavished on details to make your life easier.

Height adjustable steering wheel with power steering.

The comfort of a spacious car makes all the difference.

The interior of the Fiat Albea is really roomy, with the most generously sized rear seat in this segment. The new Fiat Albea offers you all you need to be comfortable. Because it knows what you want.

As you drive you can listen to your favourite music from the CD-MP3 player thanks to the sound system with 6 speakers.

Elegant central cabinet with gearlever and cup holder.

The new instruments are stylish and extremely legible. On the trip computer you can read the exterior temperature, average and instantaneous fuel consumption, your travel range.

You can arrange the head restraints, raise them or lower them, whichever way makes you feel comfortable.

The armrests can be adjusted for superior comfort on long journeys.

You name it: a warehouse, a depot or a luggage compartment.

The new Fiat Albea has the biggest luggage space in this vehicle segment. With an astounding 515 l capacity, its luggage compartment is as big as your passions, your hobbies, your requirements and your family.

Active safety belts that can be adjusted to the desired height for enhanced travelling comfort.

Improved ABS+EBD system: active protection you can rely on, even on slippery surfaces.

Designed for your safety.

You can depend on the new Fiat Albea. Two airbags, Energy Absorbing Steering wheel (EAS), collapsible steering column, ABS braking system with EBD, Fire Prevention System (FPS), retaining hooks to prevent the hood from crushing into the cockpit in a crash, and many other features. All it takes to enable you and your loved ones to travel in full safety.

ABS+EBD

The new Fiat Albea is equipped with ABS (Anti-Lock Braking System) and EBD (Electronic Brake force Distribution). With this set-up, braking performance is optimised and wheel lock-up is prevented.

ANTI-SUBMARINING SEATS

Prevent front and rear seat occupants from sliding under the seat belts in a front or side crash.

FIRE PREVENTION SYSTEM (FPS)

The most advanced solution to protect the car against fire risks. In a crash, the system cuts out the fuel supply and prevents a fire from breaking out thanks to the use of fire resistant materials.

IMMOBILIZER

The ignition key of Fiat Albea uses Fiat Code II, which changes each time the engine is started. This mechanism prevents engine starting without the original ignition key.

The new Fiat Albea is equipped with driver and passenger airbags.

You can easily switch off the passenger airbag if you want.

Maximum safety for everyone thanks to the three-point belts for the rear seat occupants.

Superior performance and fuel economy: both can be yours with Fiat Albea.

This is the ideal diesel engine formula!

Multijet = performance + fuel saving + durability.

The 1.3 16V Multijet equipping Fiat Albea is an innovative engine using Common Rail technology.

This silent engine with a power output of 70 bhp features high pressure direct injection with up to 5 injections per cycle. In this manner, it offers the pleasure of unique engine responsiveness in any driving condition. You will find that fuel consumption is but 3.9 lit./100 km.

On out-of-town routes, it ensures excellent performances mated to fuel economy.

1.3 *Multijet* 16v

Displacement: 1248 cc

Ecology level: Euro 1

Max power output EC: 52 kW (70 bhp) at 4000 rpm

Peak torque EC: 180 Nm (18.3 kgm) at 1750 rpm

Gearbox, n. of speeds 5 + reverse

Top speed: 160 km/h

Acceleration 0 to 100 km/h: 14.5 seconds

Fuel consumption (1999/100 EC directive): urban cycle 6.0

extra-urban cycle 3.9

mixed cycle: 4.7

CO₂ emissions: 148 g/km mixed cycle

1.2

Displacement: 1242 cc

Ecology level: Euro 3

Max power output EC: 45 kW (60 bhp) at 5000 rpm

Peak torque EC: 102 Nm (10.4 kgm) at 2500 rpm

Gearbox, n. of speeds 5 + reverse

Top speed: 150 km/h

Acceleration 0 to 100 km/h: 16.9 seconds

Fuel consumption (1999/100 EC directive): urban cycle 9.1

extra-urban cycle 6.0

mixed cycle: 7.1

CO₂ emissions: 167 g/km mixed cycle

1.4 Fire

Displacement: 1386 cc

Ecology level: Euro 4 with EOBD

Max power output EC: 57 kW (77 bhp) at 6000 rpm

Peak torque EC: 115 Nm (11.7 kgm) at 3000 rpm

Gearbox, n. of speeds 5 + reverse

Top speed: 162 km/h

Acceleration 0 to 100 km/h: 13.5 seconds

Fuel consumption (1999/100 EC directive): urban cycle 8.2

extra-urban cycle 5.0

mixed cycle 6.2

CO₂ emissions: 163 g/km mixed cycle

1.6 16v

Displacement: 1596 cc

Ecology level: Euro 3

Max power output EC: 77 kW (103 bhp) at 5750 rpm

Peak torque EC: 145 Nm (14.7 kgm) at 4000 rpm

Gearbox, n. of speeds 5 + reverse

Top speed: 180 km/h

Acceleration 0 to 100 km/h: 10.8 seconds

Fuel consumption (1999/100 EC directive): urban cycle 11.5

extra-urban cycle 6.5

mixed cycle: 8.3

CO₂ emissions: 148 g/km mixed cycle

If you want a petrol engine, the new 1.4 Fire engine is the right choice for you.

The 1.4 Fire engine has been conceived for motorists seeking an engine that is both sparing and brilliant. The fruit of Fiat's on-going technological progress, it ensures a significant reduction in fuel consumption, muted running and minimised emissions.
